

Wiha wins the iF DESIGN AWARD 2020

Wiha has won this year's iF DESIGN AWARD and thus joins the list of companies distinguished by the world-renowned design label. Its winning product was the slimVario® electric tool set and practical bag in the Product discipline in the Industry/Tools category. The coveted design award is granted once a year by the oldest independent design institution in the world, the iF International Forum Design GmbH in Hannover.

Electrical work across several locations calls for many different screw profiles. Wiha's 32-piece slimVario® electric tool set covers all standard screw profiles required by an electrician, thus offering maximum flexibility in its use. The innovative concept also impressed the jury of 78 international experts. Safely stored away tidily in a robust multifunctional bag, these electrician's tools are eminently suitable for portable use. When folded out, the multifunctional bag acts as a work bench stand to remove tools easily. The strap to hang the bag on the wall and the removable base create extra added value. The tool set offers optimal space saving and flexible freedom of choice through its extensive interchangeable bit system.

Thanks to Wiha slimTechnology, the ultra-narrow slimBit blades, which are approved up to 1,000 V AC, can also easily reach low-lying screw and spring elements. When used in combination with the short stubby handle, screws can be effortlessly reached even in confined spaces. The PicoFinish® handle is ideal for delicate and high-precision fastening tasks. The large SoftFinish® long handle is used when greater force needs to be applied with larger slimBit profiles.

As part of the Wiha ElectricVario family, the range is highly compatible and can be flexibly extended as required. www.wiha.com/evf

About Wiha

Wiha is one of the world's leading manufacturers of hand tools for professional use in the trade & industry. Founded as a small family firm in 1939, Wiha is today a globally active company, still owner-operated by the Hahn family. Wiha seeks to make professional daily life much easier for users with a product assortment of innovative hand tool solutions geared towards user needs which increase efficiency, reduce costs and preserve health. This is why Wiha develops and manufactures products that meet the strictest requirements for quality, functionality, durability and ergonomic design. It provides a comprehensive range of tool concepts and sets, screwdrivers, torque tools, multitools, L-keys, bits, pliers, soft-faced hammers, electrical solutions and much more. Exactly 80 years after its founding, the company received the German Brand Award and the Red Dot Brand Award "Best of the Best" for its excellent brand work and development in 2019. In the same year, Wiha was also honoured with the distinction of being named one of Germany's top 100 most innovative companies among SMEs for the second time. Wiha was also distinguished with the Manufacturing Excellence Award (MX Award) as the best SME in Germany back in 2014.
